

The Slim Fold Down is designed for applications where the available space is wide but not deep, such as on balconys or narrow passageways between a house and a side fence.

Line length is 11m over 5 lines. Slim Fold Downs have all of the features of the Single Fold Down but with the advantage of less depth.

11m of hanging space
72mm line spacing for ease of clothes hanging
One-hand operation for folding up or down
Galvanised tube for corrosion resistance
Ground Mount Kit available for post mounting
Two powder coated colours available
